Kate Jie Yu

STAFF PRODUCT DESIGNER · AI SYSTEMS · PRODUCT PLATFORMS

Bay Area, CA / katejieyu@gmail.com / linkedin.com/in/katejieyu / katejieyu.com

PROFILE

Staff product designer with **10+ years** architecting enterprise SaaS across **AI-native workflows**, governance constraints, and complex supply chain platforms. I build **decision infrastructure** — translating ambiguous strategy into scalable product systems through structured skills, readiness signals, and authority-aware design patterns. Known for **platform-level impact**, cross-functional leadership, and scaling design operating models across organizations.

EXPERIENCE

Founder & Product Architect | SyncoPro — 2025 -- Present

- Architected a **0→1 AI-powered planning platform** converting ambiguous product intent into execution-ready outcomes via structured skills, readiness signals, and governance-aware workflows.
- Designed the **"Decision Readiness Engine"**: intent modeling → readiness scoring → authority-aware governance routing → AI assistance; validated through iterative prototyping before engineering commitment.

Sr. UX Design Specialist | SAP — 2022 -- Present

- Defined **system-level workflow architecture** for Supply Chain Collaboration (ASN, GRN, Discovery Analytics) — reduced processing time **30%**, operational errors **20%**, and customer satisfaction **+45%** through research-driven redesign.
- Partnered with **Product and Engineering leadership** to shape roadmap priorities and UX architecture; led cross-functional workshops aligning design, data modeling, and engineering across product lines.
- Directed **Discovery Analytics v1.0 → v2.1** — drove **35% feature adoption growth** and **25% faster time-to-insight**; shipped GenAI interaction layer in 2024.
- Pioneered **"Design-to-Code" operating model** — transformed Figma outputs into live, demo-ready experiences via vibe coding; scaled practice org-wide, accelerating stakeholder validation. Established **BN Design Component Library**; mentored 5 designers. Proposed two **AI-agent concepts** at SAP Hackathon 2025, earning executive recognition.

Senior UX Designer | Synopsys — 2020 -- 2022

- Led **UX strategy and platform architecture** through full digital transformation; redesigned navigation and content systems, increasing engagement — delivered global platforms under pandemic-era constraints, recognized by VP for high-impact delivery.

Web Designer & Developer | Sage Intacct — 2018 -- 2020

- Drove **400% webinar traffic growth** in 2 months via UX redesign; designed enterprise event mobile app translating cross-functional requirements into a scalable UI system.

Freelance Product Designer | Kate Studio — 2014 -- Present

- Independent practice delivering **end-to-end SaaS product design** across B2B and consumer platforms; founded **Mighty Coupons** and **ReferMeJob** — full 0→1 product ownership from concept through launch.

CAPABILITIES

Decision Infrastructure Design / AI Product Systems (Skills + Guardrails + Reuse) / Agentic Workflows / AI Governance & Authority Boundaries / Design-to-Code Operating Models / Decision Readiness Systems / Enterprise SaaS Platforms / Product Strategy / 0-to-1 Product Development / Design Systems / Cross-Functional Alignment / Self-Serve Activation /

EDUCATION

Master of Arts Academy of Art University — 2016 -- 2018
